Tonala Flower Pot series has the traditional clay pot look and its design is functional and attractive is also ideal for your garden. Tonala Flower Pots are light, resistant and lasting because its material polypropylene a copolymer of impact offers great resistance to cracking, chipping and scratching and also to natural light. This characteristics of

the material allows us to deliver a decorative pot with a clay look but without the breakage and discoloring. Tonala Flower Pots have matching saucers that are available separately and can also be used in interiors.
