Vallarta Flower Pot series design is modern and attractive and can be used as a planter in the floor or hanging on the ceiling its matching saucers lat then be used in interiors and exteriors. Vallarta Flower Pots are light, decorative and lasting because its made by polypropylene a copolymer of impact offers great resistance to cracking, chipping and scratching and also to natural light.

Vallarta Flower Pots have an attractive and functional style and the variety of colors makes them great o decorate balconies, garden, offices and houses.

Vallarta series have matching saucers, small baskets and artesanal wire bases to decorate your home and office.
